2018 Architectural Millwork Catalog

who we are

The craftsmen at Ingrained Wood Studios began collaborating with local architects, designers, and builders in 2003. The results of this alliance continue to adorn some of the finest homes in the Twin Cities. IWS takes pride and care in every step of the process in creating custom millwork, beginning with sourcing only the highest quality kiln dried wood. Our catalog of knives, quality equipment, and talented craftsmen allow us to accurately and consistently run hundreds of profiles. Each length of molding is hand sanded to remove any remaining mill marks and ease any sharp edges.

To see more of our work, please visit our website.

what makes us different

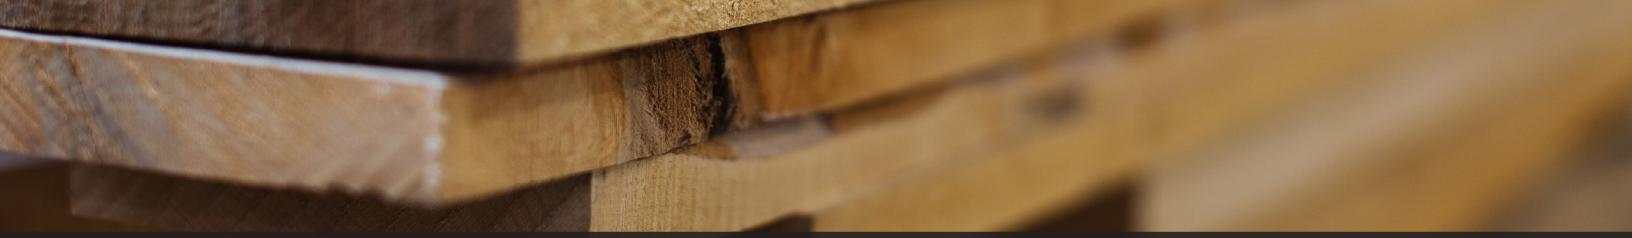

The craftsmen at Ingrained Wood Studios enjoy an engineering challenge, and take complex tasks in stride. Whether you are looking for a simple casing or a complex cornice detail, IWS has the capabilities to efficiently deliver a high quality product.

We look forward to collaborating with you on an upcoming project!
